

RAIN AND WIND

RECORD OF STORM .52—WIND
TIPS OVER TREES AND
CAUSES LITTER

Only minor damage from the gale which has blown steadily for the past forty-eight hours in Glendale. A few rotted poles were laid low by the force of the wind, and a good many trees in parkways, particularly acacias, were tipped over. A prostrate tree is to be seen near the Advent church, another is on Jackson, near Lexington Drive.

The Telephone Company kept four men at work at work all Sunday endeavoring to keep their principal lines open. Their main difficulties were from trees which struck the wires in falling.

Roofs covered with frayed tar paper were stripped, loose boards and shingles were detached and flung about, vines were torn from trellises, walks and parkways strewn with twigs and scarlet pepper berries wherever pepper trees were near.

Ernest Sparr, manager of the Sparr Fruit Company, says while it is too early yet to determine the extent of injury to citrus orchards, there will undoubtedly be considerable loss to growers, not only from fruit blown off, but from the bruising of the oranges and lemons which remain on the trees. He has reason to believe that the effects of the storm will be more severe in the Riverside district than here, and looks for a possible loss of \$10,000 in his orchards there.

Mr. Sparr, his wife and daughter have had influenza and he has been confined to his home for about two weeks, but expects to be well enough to return to his business soon.

The rate of the wind was figured at 38 miles an hour in Los Angeles where it was pronounced the heaviest gale in thirty-seven years. Liberty Fair in Exposition Park, which has been hooded ever since the project was first conceived, seems to have been the chief sufferer in the sport which the wind played with tents and other temporary structures housing exhibits.

The storm began with a gentle, warm rain, which was much appreciated by farmers and gardeners. The records of the Bartlett rain gauge show a precipitation of .52 before the wind dissipated the rain clouds. The total for the season is now 3.95 inches.

A NEW AGE

HEREAFTER NATIONS WILL BE
JUDGED AS MEN ARE
JUDGED

The unusually windy weather lessened the attendance at the Methodist Church yesterday morning. A fair attendance was present, however, and all felt well repaid for their effort. The new pastor, Chas. H. Scott, preached a timely and earnest sermon from the words of the Apostle Paul: "Old things are passed; behold all things are become new." In the first part of this chapter (fifth chapter of Second Corinthians) the logician Paul presents his masterful arguments for the immortality of the soul. "For we know that if our earthly house of this tabernacle be dissolved we have a building of God, an house not made with hands, but eternal in the heavens."

Things seen are temporal, and temporal things pass away. Not so with our eternal home, to which we can look forward with exaltation. This was Paul's attitude. He had a vision of the heavenly home and during his busy, active life he had periods of homesickness of the soul—a longing to be absent from the body and present with the Lord. But he sums it up that "Wherefore we labor that, whether present or absent, we may be accepted of him." There is work to be done; human needs to be ministered to. "My mission while here is to persuade men to accept Christ."

"The love of God constraineth me to labor on."

And, like Paul, it is our privilege. For Christ died for us that we may live not to ourselves alone but for others. Altruism is a modern name, coined, no doubt, in Boston. But it is an unfamiliar, an unnecessary word, as we have a better, more familiar expression, and that is Christianity. Continuing, the Apostle declares, "And henceforth know we no man after the flesh." It is not the outward or physical appearance, but the soul, that has the image of the Divine that makes the man. God needs no Bradstreet directory to judge the worth of a man. His eyes are not beheld; His ways are not earth's ways. Jesus is the great renewer. "Old things pass away and behold all things are become new." Overalls are exchanged for white

(Continued on Page 4)

RED CROSS MEETING

FOR LACK OF QUORUM ANNUAL
MEETING WAS ADJOURNED
TO TUESDAY AFTERNOON

The rainy weather and the fear of influenza combined to cut down attendance at the annual meeting of the Glendale Red Cross chapter, which took place as advertised, at the headquarters on Brand Boulevard Saturday evening. Not enough members were present to constitute a quorum, and consequently no election was held. An excellent and very satisfactory financial report was submitted by Miss Fink, and a production report by Mrs. Blackburn, which are given herewith.

On motion of R. A. Blackburn, the meeting was adjourned until 4 o'clock Tuesday afternoon, to be held at the same place. The failure of the meeting was a great disappointment, particularly to the committee of arrangements, of which Mrs. Herbert Dewes is chairman. Its members had spent the afternoon putting the workroom in order and making it attractive for the gathering; flags had been hung and floral decorations placed where they would be most effective. A good fire in the big heater made the room warm and cozy, and altogether it was a pretty setting.

Officials in attendance are most anxious that the public should not have the mistaken impression that the work of the Red Cross is over. As announced in dispatches from Washington, the government plans to retain in Europe an army of one million, five hundred thousand soldiers. These men will need care, and although the continuation of the work on surgical dressings will not be necessary, they will still have need of Red Cross hospitals to care for incidental illness from influenza and other maladies which are bound to develop where masses of men are gathered together in camps. They will still need socks and sweaters, and the work of the home service department, which looks after the needs of the families left at home, must still go on. Mrs. Arthur Brown of Glendale is chairman of that department of work here.

The government is also looking to the Red Cross to carry out the big contracts it has undertaken in providing for the destitute populations of France, Belgium, Russia and all the small nations that have suffered in the war. For these reasons no relaxation of effort will be possible for some time to come.

J. H. Braly, chairman of the local organization, declares: "Even were our army reduced to a peace basis, we should still maintain a working organization here to meet emergency demands which are constantly arising and which call for immediate aid. At the beginning of the war we had about 30,000 Red Cross members in the United States. Now, I suppose, we have twenty millions of members. Glendale has three thousand where before the war we had practically none. Reconstruction is going to call for an immense amount of relief work which only such an organization as the Red Cross can give."

It is regarded as highly important that a good attendance be present at the adjourned meeting set for Tuesday afternoon, that officers for the coming year may be elected and important work be organized.

Financial Report
Following is the financial report of the Glendale Chapter of the American Red Cross (Continued on Page 4)

NEW COMERS

Captain and Mrs. D. Ripley Jackson of Chestnut street were delighted when they received word last Friday that Col. John D. Fraser of West Orange, N. J., brother-in-law of the captain, had sold his house there, shipped his furniture and automobile, and with his family was en route for Southern California with the intention of locating permanently. He announced they might expect to see the Fraser family almost as soon as they received the letter. Mr. and Mrs. Fraser visited the Jacksons last February and were delighted with this part of the country and Glendale in particular. They will be guests of the captain and his wife until they decide where to locate. Col. Fraser has been in the regular army for about thirty years, and was retired near the middle of the war.

NO TUESDAY CLUB MEETING

At a special session of the executive board of the Tuesday Afternoon Club, it was decided not to hold any club meetings until the influenza ban is lifted entirely and permanently.

The parliamentary class, of which Mrs. P. S. McNutt is instructor, which was to have convened an hour preceding the meeting, has also been called off and will not meet.

BERLIN FACING COUNTER REVOLUTION

WORKMEN'S AND SOLDIERS' COUNCIL IS CLAIMING PRO-
VISIONAL CONTROL OF ENTIRE COUNTRY

(Special Service to Glendale Evening News)

COPENHAGEN, Nov. 25.—The Berlin Workmen's and Soldiers' Council has issued a proclamation claiming provisional control of the entire country for the purpose of suppressing a counter revolution.

Other dispatches reported that Oldenburg, Bremen, Hanover, East Ariesland and Schleswig Holstein have formed an independent republic with Hamburg as the capital.

The Moleschn Zeitung has warned the extremist group to beware of a counter revolution, declaring that troops have been brought to Berlin. It is reported that the Berlin socialists are forming an army in which every one is to wear the same sort of uniform, only the shoulder straps designating rank.

MOONEY CASE MAKES BITTER ENEMIES

PERSONAL ENCOUNTER BETWEEN DISTRICT ATTORNEY
FICKERT AND EDITOR OF THE CALL

(Special Service to Glendale Evening News)

San Francisco, Nov. 25.—Fremont Older, editor of the San Francisco Call, declared today that he would not prosecute District Attorney Fickert following an encounter between them in the lobby of the Palace Hotel last night.

The encounter was an outgrowth of ill feeling resulting from the Mooney case.

"I struck Older with my left hand and not my right," Fickert said. "I had heard that he had threatened to 'get me.' I struck when I saw him make a move toward his hip pocket."

"Fickert took a mean advantage," Older said. "He is a comparatively young man. After he knocked me down he raised his foot to kick me, but friends called him off."

HOLLYWOOD SCHOOL TEACHER KILLED

AUTO IN WHICH SHE WAS RIDING OVERTURNS AND TWO
MALE PASSENGERS INJURED

(Special Service to Glendale Evening News)

LOS ANGELES, Nov. 25.—Miss Georgia Quaid, a Hollywood school teacher, was instantly killed and two men were injured when an auto in which they were riding was overturned near Universal City, today.

ADVANCE OF ALLIED SOLDIERS

AMERICANS HOLD THE LINE BETWEEN THE LUXEMBURG
BORDER AND LORRAINE

(Special Service to Glendale Evening News)

London, Nov. 25.—The Allies, advancing in territory formerly occupied by the Germans, now hold a line running approximately as follows: East of Arondoneck, Moll, Avennes and Beho, then along the Luxemburg-Prussian frontier to Lorraine, thence to Duzenbors, Volkingen, Saarbrucken, Zelz and Saargemude to the Rhine, and along the Rhine to the Swiss frontier. The French occupy about a quarter of the total line. The Americans hold the Luxemburg border to Lorraine.

WORLD'S RECORD FOR TAKING PRISONERS

FRANCISCO CARAIDINO WINS SILVER MEDAL FOR TAKING
4000 AUSTRIAN PRISONERS WITH ONLY 14 MEN

(Special Service to Glendale Evening News)

Rome, Nov. 25.—Francisco Caraidino has received a silver military medal from the Italian government for his work during the Austrian retreat. He established the world's record for taking prisoners, capturing 4,000 Austrians with his squad of about fourteen men.

RESTRICTIONS OFF FURNITURE

(Special Service to Glendale Evening News)

Washington, Nov. 25.—The war industries board today removed all restrictions on the manufacture of furniture.

FRENCH AMBASSADOR WILL ACCOMPANY PRESIDENT

(Special Service to Glendale Evening News)

Washington, Nov. 25.—French Ambassador Jusserand will accompany President Wilson to the peace conference, it was announced here today.

ITALIANS WITHIN TEN MILES OF GERMAN FRONTIER

(Special Service to Glendale Evening News)

Rome, Nov. 25.—Italians have occupied Innesbruck and Lambeck in Austrian Tyrol, as provided in the armistice. Innesbruck is but ten miles from the German frontier.

FLOOD CONTROL WORK

WITH FUNDS AVAILABLE CITY
WILL TRY TO PUSH WORK
ON VERDUGO WASH

As stated by City Clerk Sherer in the minutes of the last meeting of the city trustees, a portion of the money realized from the sale of flood control bonds will now be available for local work in the wash. This is approximately \$20,000, and the city trustees will now take the matter up where they left off several months ago when it was learned that none of the flood control money was to be had.

In the meantime the city has traded a lot it owned for another belonging to a Mr. Walker, which is needed in straightening the channel of the Verdugo Wash in the neighborhood of Brand Boulevard.

The county of Los Angeles has made an appropriation of \$20,000 to build a reinforced concrete bridge across Brand Boulevard, including both roadways over the new channel, and its bridge plans are now complete. The county flood control engineer has approved the plans and has also laid out a plan for the new channel that will obviate the sharp curve at the bridge and place the new one about 150 feet south of the present old one.

The P. E. Railroad Company, through its assistant engineer, Mr. Johnson, has agreed to the new alignment of the wash and also to the relocation of its tracks so that the Burbank line will run on the north side of the new channel running west from the bridge. This will eliminate the Burbank trestle which now crosses between Brand and Central on a diagonal. They have also agreed to eliminate their trestle at Brand and build new bridges in conformity with the proposed county bridges. They have stated, however, that owing to war conditions they may have to put in temporary structures until steel and other needed materials can be had for the permanent structures.

Now that a portion of the flood bonds have been sold, about \$20,000 will be available for excavating the new channel of the Verdugo Wash and placing protective work on both sides from Louise Street to the Pacific Avenue bridge.

The city purposes to take the matter up with all parties concerned, but it is probable that several months will elapse before any constructive work can be begun, owing to preliminaries in the way of advertising for bids, etc., which must take place before actual work starts.

PROPHECY OF DANIEL

Pastor W. Harry Anderson, an American missionary, who for twenty-three years has labored among the native tribes of interior Africa under the direction of the Seventh-Day Adventist foreign mission board, was the speaker at the regular service of the Glendale Adventist Church, Wilson and Isabel streets, last Saturday morning. Mr. Anderson and his wife came to the states to attend the quadrennial session of the general conference of the Adventists, in San Francisco last spring. During the summer they visited a number of camp meetings in the west, and this fall have been giving instruction at the White Memorial Hospital at Boyle and Michigan Avenues, Los Angeles. They are making preparations to return to Africa within a few months.

Speaking at the Seventh-Day Adventist Church Saturday, the missionary expressed his gratitude that not one member of the local church has died from influenza, and that peace has come, making possible the rapid extension of missionary operations in foreign lands throughout the world. He told of the vast populations of Africa, China and other lands who are without a knowledge of the gospel. This is a time of great crisis for the church, he declared, and calls for an awakened sense of responsibility.

Mr. Anderson said the prophecy of Daniel 11 and 12 is nearly fulfilled; that Turkey, the "King of the North," will not long exist as a nation, since eminent statesmen have declared that he has dug his own grave, politically, and then committed national suicide. The speaker pointed to the words of the prophecy, that when Turkish rule ends, Christ will come, and said that if ever the gospel is to go fully to the heathen throughout the world, it must be now, and quickly.

Mrs. H. E. Bartlett, acting vice chairman of the Glendale Red Cross chapter, is sending out a call asking all ladies who have worked in the surgical dressings department to meet at headquarters Wednesday and Friday of this week, to complete the work already begun.

GLENDALE PILGRIMAGE

LOS ANGELES CHRISTIAN SCIENTIST VISIT CITY TO HEAR LECTURE BY ANDREW GRAHAM

The Glendale Church of Christ, Scientist, was called upon to entertain many visitors from Los Angeles and surrounding towns Sunday, and proved equal to all demands made upon it, also a most gracious hostess.

The regular services were held in the morning, as usual, but in the afternoon the church was thrown open for a lecture by Rev. Andrew J. Graham of the board of trusteeship of the Mother Church in Boston. This lecture was to have been given in Shrine Auditorium, Los Angeles, but could not take place on account of the influenza embargo. As church services are permitted in Glendale, a pilgrimage was made to this shrine. The lecture was delivered twice during the afternoon, the first time at 2 o'clock and again at 4. Devout worshippers, many of whom came in automobiles, were in attendance from many suburbs as well as the city itself. Machines were parked solidly at the curbing for more than a block in four directions and on both sides of the street, and there likewise were many who came by trolley.

SUMMARY OF GAME LAWS ISSUED

The nineteenth annual summary of Federal game laws and regulations has been issued by the biological survey of the United States department of agriculture. The objects of the publication are to present the provisions in convenient form for sportsmen and others and to show the general condition and trend of game legislation from year to year.

The provisions relating to seasons, licenses, limits, possession, sale and export, and a few miscellaneous matters have been compiled and grouped under state and other governments, alphabetically arranged, thereby enabling interested persons to obtain conveniently a brief synopsis of the laws of particular sections.

AT THE CROSSWAYS

PRE-COMMUNION WEEK AT THE
GLENDALE PRESBYTERIAN
CHURCH

The first sermon in the week's series of services was given yesterday morning by the pastor, Walter E. Edmonds, taking as a subject "At the Crossways," and for text Jer. 6: 16. "Looking at the words of the prophet Jeremiah, 'Thus saith the Lord, Stand ye in the ways, and see, and ask for the old paths, where is the good way, and walk therein, and ye shall find rest for your souls. But they said, We will not walk therein,' let us consider for a few minutes the three commands of God given here, and act upon them."

The Lord says to us today to stand—a difficult thing to do in these times of hurry and bustle. "Stand still and see the salvation of the Lord."

He commands all to see. "O taste and see that the Lord is good." Oh, that the dimmers might be taken from our eyes!

Thirdly, He wants us to ask. What authority shall we turn to? There is only one—the Lord God of Hosts—for He knows. "I am the way, the truth and the life," and he that "climbeth up some other way, the same is a thief and a robber."—John 10: 1. There is only one way into the kingdom, the way of the blood of Christ, which is the old way—the way of the prophets and martyrs, the way of our mothers and fathers. Are you going to refuse to accept this way, which leads down into the valley of repentance and then up past the Cross, where your burdens fall from your shoulders? The way is hard and rough, but Christ traveled it before you, and if you accept you will always have the light of the Cross to guide you through the storms of life, its sin and its selfishness.

"Without the shedding of blood there is no remission of sin."

What is the result, then, of standing, seeing, and asking of God? Simply this: You shall find rest for your souls, rest, the one thing the world wants today. "Come unto me, all ye that labor and are heavy laden, and I will give you rest."

Shall we be like the Israelites of old who said to Jeremiah: "We will not walk therein"? Be not deaf to the trumpet that invites you to repent and accept of Jesus Christ, for this very trumpet tells of an avenging angel and a Day of Judgment. The wicked shall not go unpunished, but must pay the price for neglecting the only way of salvation, the salvation through the blood of Jesus Christ.

"Behold, now is the day of salvation." Will you hearken?

RED CROSS NOTES

To make refugee garments instead of surgical dressings is the
important change brought about by peace in the Bureau of Produc-
tion program. A special appeal has been made to Chapters to speed
up work for Civilian Relief overseas. The answer to the Christmas
Roll Call is expected to increase the number of available workers
and solve the problem of clothing the destitute of all nations.

Get out the pencil. Somebody wants to know how many miles
of yarn have been used since America entered the war. As volun-
teer knitters have made over ten million articles and used several
million pounds of the material, it is safe to estimate that the yarn
would reach around the world several times and then back to Ber-
lin. The man who has been holding the skein ought to be expert on
this—he knows how many miles each hank contains.

Among the arrivals of Red Cross workers overseas, the fol-
lowing from the Pacific Division are posted: Arthur W. Willott,
Sacramento; Kate Park, Los Angeles; Hazel L. Livingston, Ala-
ameda; Nellie Porter, Berkeley; Isabelle Cauby, Barbara Grace Dur-
kin, E. M. Ashmun and Jesse Francis Bell, San Francisco.

One of Kris Kringle's first stops in France Christmas eve will
be at the American hospitals. In every ward of every hospital he
will find a tree and Red Cross workers waiting to help him fill the
soldiers' socks.

Santa Claus, Christmas and the Red Cross Roll Call come
but once a year. The Roll Call takes place the week of December
16. Speak up, reach down and dig out when your name is called.

One of the many, many things we have to be devoutly thankful
for this Thanksgiving is that No Man's Land is pre-empted by the
Yanks and Fritz will give no more gas parties. When the drive for
seeds and shells was called off by Washington and the business of
making gas masks discontinued, there was general rejoicing—not
only in the Bureau of Salvage and Shop—but throughout the Divi-
sion. Gassing was the most diabolical form of torture emanating
from modern warfare, and the Red Cross is truly thankful that the
necessity of providing protection against it has been superseded by
other forms of humane relief work.

Our goodbye to the Flu was without regret. In fact we speeded
the parting guest without compunction. The Chapters of the Pac-
ific Division handled their individual problems during the epidemic
in efficient and skillful manner. The work of the women was splen-
did, noble and self-sacrificing. They rose to all emergencies that
came up in a calm, resourceful way that can win for them only the
approbation and grateful appreciation of the entire community.

Looks as if the Red Cross will have to extend its canteen ser-
vice to Berlin.

Save for Opportunity

The war is over, the boys
will soon be marching
home. The new era of
economy and thrift is on.
Thrift, plus the Pep they
will bring to us, will open
up greater opportunities
than ever before.

Why not get ready to greet
them when they come?

Personals

Mr. and Mrs. A. P. Ransone and
daughter, after motoring from Waco,
Texas, have located in Glendale. Mr.
Ransone is with the Glendale Evening
News.

Mr. and Mrs. Maynard of Holly-
wood and the Misses Austin and Ha-
vens of Los Angeles were Sunday
guests of Miss E. A. Bingham of West
Broadway.

Mr. and Mrs. Wash Hunt of the
De Luxe Apartments entertained Fri-
day evening with a family dinner
party in celebration of the birthday
of her sister, Mrs. Roberts.

The dance and card party planned
for so long by Glen Eyrie chapter,
and postponed at various times on
account of the influenza ban, will be
held Saturday evening, Nov. 30, at
Masonic Temple.

City Manager Watson states that a
good many trees were blown down
by the wind in Glendale, and em-
ployees of the forestry and street de-
partments have been busy clearing
away the debris.

Mrs. L. N. Hagood states that it
has been deemed best to postpone the
community singing for a week, and
that it will take place Thursday eve-
ning, December 5, in the high school
auditorium, at 7:45.

The music section of the Tuesday
club, of which Mrs. L. N. Hagood is
curator, will resume its meetings
next Friday afternoon at 2:30, at the
home of Mrs. C. A. Betcher, 356 Syc-
amore Avenue. The program will
be announced.

C. W. Etheridge and wife, and J.
M. Whittingham and wife, of Santa
Rosa, are the guests of Mr. and Mrs.
William Barr and John Barr of 1237
Valley View Road, Casa Verdugo.
William Barr is Mrs. Whittingham's
father. Mr. Etheridge is on the staff
of the Santa Rosa Republican.

When last Mrs. Alton M. Brooks
heard from her husband he was at
Bologna, Italy, and expected to go
from there to Milan for service under
the Y. M. C. A. in educational work,
probably in connection with recon-
struction work. He reports Spanish
influenza prevailing there to some
extent. He encloses pictures of a
beautiful cathedral there and says it
is a most interesting city, from which
one gets beautiful views of a lovely
valley.

Since the building restriction has
been removed by the war industries
board, there seems to be some rivalry
among the builders. On Saturday
we stated that C. W. Kent & Son had
started work on the first residence
since the ban was removed. W. J.
Clendenin now informs us that W. G.
Boyd, formerly of Glendale but now
of Long Beach, is coming back here
to reside and will build a residence
for himself on Chestnut street, near
Central, and that Mr. Boyd took out
the first permit.

Mrs. Noble Ripley has received a
card announcing the safe arrival of
her husband overseas and is now
looking for more detailed information
concerning his voyage and adven-
tures. Now that censorship restric-
tions have been relaxed, it will be
possible for him to say more than the
boys have been permitted to tell
heretofore. He entered the service
only about four months ago, and is
considered very fortunate to have
gotten across, even though he saw no
battles.

Corporal Norman Badger, son of
Mrs. A. J. Badger, is among the dis-
appointed ones who joined the army
but failed to get across. On the way
east from Camp Fremont he devel-
oped a case of influenza and made
most of the trip in the hospital. On
arriving at port he was not permitted
to embark with his fellow soldiers.
He has since written his mother that
they were kept on a transport for
two weeks and then brought back to
port and sent to Camp Upton. He is
now at Camp Merritt, and Mrs. Bad-
ger is hoping he will soon receive his
discharge and be allowed to come
home.

DR. ARCHER IMPROVING

Mr. and Mrs. C. S. Archer and Mr.
and Mrs. Warren Q. Roberts drove to
Banning Sunday to visit Dr. E. F.
Archer who has been critically ill
with influenza and complications.
They found his condition improved
and he is now able to sit up in bed
for a few minutes at a time. Dr.
Archer said he feels deeply grateful
to his many Glendale friends for the
kind messages of inquiry and sympa-
thy and for the flowers and maga-
zines and other tributes of love that
have been so lavishly bestowed upon
him. His friends here will be great-
ly relieved to know that he has
passed the critical period of his ill-
ness.

She: "No, George, I am afraid I
cannot marry you. I want a man
who possesses a noble ambition;
whose heart is set on attaining some
high and worthy object."
He: "Well, don't I want you?"
She: "Oh, George! I am yours!"

THANKSGIVING SERVICE

The First Church of Christ, Scien-
tist, announces a special Thanksgiv-
ing service at the church edifice, cor-
ner Maryland and California Avenue,
Thursday morning at 11 o'clock.
Subject, "Thanksgiving."

Calculated on the basis of 138
pounds of sugar per ton of cane, the
average of the last seven years, the
Louisiana sugar crop of this year
had a prospect on October 1 of about
267,000 short tons. The average of
the last ten years was 283,116 tons,
and of the last five years, 244,080
tons.

REALITIES OF LIFE

The following are extracts from
a lecture, "Realities of Life," deliv-
ered by Rev. A. William Goetz, pastor
of the Occult Science of Christ
Church, Sunday evening:

"Matthew 6:33: 'Seek ye first the
kingdom of God, and His righteous-
ness, and all these things shall be
added unto you.'"

"There are two things in this daily
life of ours that are a great puzzle
to most of us—the realities and the
seeming things. A reality is that
which lasts forever; all else are seem-
ing things."

"Spirit and those attributes and
parts of spirit are the only realities
in life. These things belong to the
kingdom of God. Abiding love, un-
selfishness, forgiveness, are spiritual
qualities and abide as treasures saved
in the heavenly kingdom within your
innermost heart. Material failure,
the physical body, sin and sickness
and all carnal things are the seeming
things of life. These things are
called unrealistic because they pass
away with time, while the real or
spiritual things have eternal life."

"Are we to deny the temporary ex-
istence of these seeming things, such
as sickness and the physical body and
its attributes? Absolutely not. All
of these carnal features of life are
our own creations and we have no
more right to deny their existence
than a mother or father their chil-
dren; but we also have not a right to
allow these temporary circumstances
and environment to dominate us. The
power that creates is always greater
than that which is created, therefore
the real self, the spirit, can, through
the power of will, change the circum-
stance, surroundings of even self, the
physical body."

"We say the physical body is not
a reality; that is true, for every day
it changes. When we pass to the
higher realms of life the body is turned
to ashes and is no more—it has
only been a seeming thing; the real
has passed on."

"Yet all these seeming things
should not be denied, but all for our
use; they are our own creation and
must be used to teach us the lessons
of life that we may ever grow
stronger as we learn to see things in
their proper perspective and turn to
God and spiritual things first—seek-
ing first the spiritual kingdom and
all things of the carnal and seeming
world that we need for peace, plenty
and happiness shall be given unto us
by the God of Love and Abundance."

Of the German potash imported in-
to the United Kingdom before the
war, about one-fourth was used in
agriculture, but the prediction of the
German papers that British agricul-
ture would be greatly damaged by
the stoppage of the supply from Ger-
many has not been verified. New do-
mestic sources of supply have been
utilized, chief of which is the dust of
blast furnaces. Another big source
of supply has been found in the wash-
ing of greasy wool, and another avail-
able one is the dust and fumes of
cement kilns.

About 24 per cent of the entire hay
crop is baled, it is estimated by the
crop reporters of the bureau of crop
estimates. It is expected that 18-
600,000 bales of cultivated hay and
2,488,000 bales of wild hay will be
baled from this year's crop.

NOTICE TO CREDITORS

No. 39944
Estate of Vincent B. Gibbs, de-
ceased.

Notice is hereby given by the un-
dersigned administratrix of the
Estate of Vincent B. Gibbs deceased,
to the Creditors of, and all persons
having claims against the said de-
ceased, to exhibit them with the
necessary vouchers, within 4 months
after the first publication of this
notice, to the said administratrix at
the office of Tom C. Thornton and W.
T. Sprowls, 530 Mason Bldg. City of
Los Angeles, County of Los Angeles,
State of California, which said office
the undersigned selects as a place of
business in all matters connected
with said estate, or to file them with
the necessary vouchers, within 4
months after the first publication of
this notice in the office of the Clerk
of the Superior Court of the State
of California in and for the County
of Los Angeles.
Dated Oct. 25th, 1918.

GLENDAL E'S NEW CITY DIRECTORY.

The work of canvassing for the
information for the new
directory for the city of Glen-
dale and Casa Verdugo is well
under way. The co-operation
of the people of these districts
is earnestly solicited, and all
assistance and courtesy ex-
tended to the canvassers will
be greatly appreciated by the
publisher. It is hoped the
books will be ready for deliv-
ery on January 1, 1919. The
subscription price is \$3.00 per
copy if the order is given be-
fore going to press. After
going to press the price will
be \$4.00 per copy. These
prices will be strictly adhered
to and only a limited number
of extra copies will be printed.
This directory should have a
place in every business house,
every office, every school and
every home in Glendale and
Casa Verdugo.

Live stock reporters of the bureau
of crop estimates had on their farms
2.1 per cent less cattle, 2.4 per cent
more hogs, and 1.2 per cent less
sheep on September 1 than on August
1, 1918. Of the total cattle reported
51.7 per cent were cows and heifers
over 1 year old, 26.2 per cent were
steers and bulls, and 22.1 per cent
were calves.

Although the average acreage of
sugar cane per farm outside of Louisi-
ana is quite small, this crop is so
generally grown in some of the
Southern States that the total acre-
age for an entire state may be sur-
prisingly large. In Georgia, for in-
stance, the cane patch per farm is
only two-fifths of an acre, according
to an estimate by the bureau of crop
estimates, and yet the estimated to-
tal acreage of the state is 67,300.

For the wheat crop of 1917 the farmers of this country received an average price of \$2.05 per bushel; for 1916, \$1.44; for 1915, 98c; 1914, 99c; 1913, 79c, as estimated by the bureau of crop estimates. In the past year, state averages (excluding states producing less than 1,000,000 bushels) ranged from \$1.83 per bushel in Utah to \$2.66 in South Carolina.

It is estimated by the bureau of crop estimates that stock hogs on September 1, 1918, numbered 65,066,000, an increase of 4,848,000 in a year.

The Philippine Islands are steadily gaining in the production of raw sugar. From crops of 245,077 short tons in 1913, and of 408,339 tons in 1914, the crop of 1917 advanced to 425,266 tons.

The soy bean is a very profitable crop when grown for seed, and the seed-growing industry is being developed in many cotton-growing sections and in the southern part of the corn belt. The character of growth, its uniform maturing habit, and its large yield of grain recommend the soy bean for seed production.

Mrs. Black woke her husband one night and whispered: "Larry, there's a burglar in the parlor! He just bumped against the piano and struck several keys."

"Is that so," said Larry. "I'll go right down there."

"Oh, Larry," whispered the excited wife, "don't do anything rash."

"Rash! replied the husband. "Why I'm going to help him. You don't suppose he can move that piano from the house without assistance, do you?"

STATE NEWS.

Sacramento, Cal., Nov. 25.—That it will be one to two years before living conditions in America again reach a normal balance is the prediction of State Controller John S. Chambers. In the meantime, he says, America must practically feed and clothe the world. It is to America, he believes, that Europe must look for shoes, clothing and food stuffs. While prices may come down before long, they will still feel the effects of the European demand.

Great Britain would pay a good part of her war debt with fines, if many California storehouses and barns were within her borders. And a few barrels of whitewash would be in demand by many of the farmers to make their places vermin-proof. The British food ministry has so enforced its laws that any neglect to take care of food is punishable by fine or imprisonment. The following report was made by the food ministry and demonstrates the strict regulations: "For failure to take reasonable precautions against rats, mice, rooks and jackdaws, whereby 12 sacks of oats and barley were partially rendered unfit for human food, a British farmer was recently fined \$100."

Willows, Cal., Nov. 25.—Lieutenant Carl Campbell, in a letter to his uncle, S. A. Larson, tells of his experiences aboard a transport bound for France. On the same vessel were several negro troopers who were visibly affected by seasickness. At last, one of them resorted to prayer and getting down on his knees on the deck raised his hands above his head and said, "Oh, Lord, please call the ocean to attention."

Los Angeles, Nov. 25.—As soon as peace is definitely agreed upon between the Central Powers and the Allied nations, \$40,000 now held by John W. Hunt, county treasurer of Los Angeles County, will be turned over to persons living in Germany, according to announcement made by Frank Bryson, public administrator. The money was left by persons who have died in this county since the war began and was left to respective heirs in Germany.

Oxnard, Cal., Nov. 25.—Members of the California Lima Bean Growers' Association will receive checks amounting to \$2,000,000 as partial payment for lima and Henderson bush beans delivered to warehouses during October for marketing by the association.

Sacramento, Cal., Nov. 25.—Major A. Radcliffe Dugmore of the King's Own Yorkshire Light Infantry makes his first appearance here tonight, when he delivers one of his interesting lectures of the war, "Fighting It Out." Before the war Dugmore toured this country with his famous lecture, "Stalking Africa's Big Game with a Camera." Dugmore has been twice captured as a spy and has been wounded many times in the present war and was until recently engaged in observing work.

Sacramento, Cal., Nov. 25.—Mr. and Mrs. and Miss California Motorist—If you believe that the automobile laws of California need certain changes, speak right up now, or hold your peace forever. The Third Biennial Conference for the consideration of modification of the motor vehicle act is to be held at the state capitol, December 9. Suggestions for the changes may be made in person or by mail. Letters should be addressed to Supt. P. J. Tehaney, Motor Vehicle Department, Sacramento, and should reach him several days in advance of the conference, so that any suggestions may be investigated and considered. If they are to the point, Supt. Tehaney will bring the suggestions before the conference. Legislation regarding automobiles and automobile traffic in all of their ramifications will be taken up at the conference, the conferees doing all in their power to secure the enactment of beneficial legislation along those lines.

In the pre-war period of five years, 1909-1913, the United States produced 18.4 per cent of the world's crop of wheat and contributed 13.5 per cent to the world's export of wheat. Of corn, the production was 71.1 per cent and the exports 16.6 per cent; of tobacco, the production was 36.7 per cent and the exports 41 per cent; and of cotton the production was 61.6 per cent (China omitted) and the exports 64.5 per cent. During the same five years the United States produced 26.2 per cent of the world's crop of oats, 12.4 per cent of barley, 2 per cent of rye, and 6.3 per cent of potatoes.

A NEW AGE

(Continued from Page 1)

robes; the miser who hoards his money is changed into the steward who blesses the world with his wealth. Old customs which bind men are severed. Antiquated and false religions are forsaken for the Christian faith in its simplicity and power. And even a new world followed Christ's advent, and all time is reckoned as (B. C. and A. D.) before and after Christ.

A new and better order of the religious world followed the protest of Martin Luther against the religious errors of his day. And the truth as proclaimed by Luther, "That the just shall live by faith," changed the lives of individuals and purified nations and made history.

A few hundred years later a band of students in Oxford College, England, united in an earnest endeavor to improve the religious life of their nation, out of which came a great religious awakening and, incidentally, the Methodist denomination.

My solemn conviction is that a new age is here. Christ is moving upon the hearts of the world is a way and manner as never before. The divine right of kings has, thank God, passed away, never more to return; and a new order is to be established. Hereafter we are going to judge nations just as we judge men now. And deceit and dishonesty will no longer be countenanced—a new condition that recognizes the natural rights and freedom of mankind.

A new age needs a new church that shall minister to man's highest and best interests; for a church that serves itself, that is self-centered, must go. And I will act willingly as pall bearer at its funeral. We cannot be sectarian. We are Christians, and Methodism is but a means to that end. The church must be true to the heavenly vision. Will you and I be as true to present-day duties as were our forefathers? Our faces to the front. Commercialism must reckon with the souls of men as well as the bodies. We must not be a proud nation. We are but a handful of the world. Our great responsibility is to hold up Christ as the enlightener and renewer of the world. We need to get on our knees for wisdom and help in this crisis of the world's need.

PROTECTS WOOLENS FROM CLOTHES MOTH

Experiments by the bureau of entomology, United States department of agriculture, have demonstrated that naphthalene is uniformly effective in protecting woolens from clothes-moth infestation and in killing all stages of the insect.

A red-cedar chest readily killed all adult moths and showed considerable killing effect upon young larvae. It did not prevent the hatching of eggs, but killed all of the resulting larvae almost immediately.

Red-cedar chips and shavings, while not entirely effective in keeping the adult moths from laying eggs on the flannel treated, appeared to protect it from appreciable damage when used liberally.

Varying results were obtained from experiments with other exterminators of moths. The experiments are described in Bulletin 707, "Results of Experiments with Miscellaneous Substances Against Bedbugs, Cockroaches, Clothes Moths and Carpet Beetles." Copies of the bulletin may be procured from the superintendent of Documents, government printing office, Washington, D. C., at 5 cents a copy.

Rice varieties are changing places in popularity among growers. The Honduras and Louisiana Pearl varieties are losing, and the Blue Rose, Japan and Early Prolific are gaining, according to the bureau of crop estimates.

The average price of a farm horse in the United States, all ages included, declined from \$1.45 in 1910 to \$1.31 in 1916. In 1917 the average price went up to \$1.32, but in 1918 the fall was resumed and the average price became \$1.28. In 1910 the price of a farm horse averaged about 240 per cent higher than the price of a cow; now a horse averages only 50 per cent higher.

The United States exported 14.6 per cent of its wheat crop in the five years preceding the war, 1.7 per cent of the corn, 38.3 per cent of the tobacco, and 69.1 per cent of the cotton. In the three years before the war, this country exported 1.1 per cent of its oats crop, 4.4 per cent of the barley, 2.1 per cent of the rye, and 0.5 per cent of the potatoes.

The prices paid for picking cotton, this year, averaged \$1.18 in North Carolina, \$0.99 in South Carolina, \$1.05 in Georgia, \$1.34 in Florida, \$0.92 in Alabama, \$0.96 in Mississippi, \$1.04 in Louisiana, \$1.25 in Texas, \$1.28 in Arkansas, \$1.31 in Tennessee, \$1.57 in Oklahoma, and \$2 in California. These prices are per 100 pounds of seed cotton, including short and long line and sea island, and have been ascertained by the cotton crop specialist of the bureau of crop estimates. In 1896 the United States average price for picking upland cotton was 44c.

Cattle and sheep in Scotland remained practically unchanged in number last June in comparison with June, 1917, according to the agricultural returns, but swine declined 4 per cent on account of diminished feeding stuffs.

Production Report.
Mrs. Helen Sadler, chairman of the

hospital department, reports that during the months of August, September, October and November there were 1,764 garments made in her department.

Mrs. Helen Campbell, chairman of the knitting department, states that during the months of September, October and November 520 pairs of socks and 25 sweaters were made.

Mrs. C. L. Bullard, chairman of the surgical dressing department, reports two hundred absorbent cotton pads in September, 200 in October, and 200 influenza masks and 100 pneumonia jackets in November.

Miss Coral Griffith has resumed work on the housewives and comfort kits for the soldiers, and no doubt before the end of the month will have a number of these useful articles ready for the first shipment in December.

Mrs. Sadler's itemized report of the hospital garment section for the past four months reads as follows:

Operating gowns	142
Girls' dresses	209
Girls' petticoats, 4 years	300
Girls' petticoats, 2 years	300
Girls' petticoats, 14 years	200
